DUO-LINK™
Composite Luting Cement

DUO-LINK is a dual-cured cement that provides the highest degree of conversion in both light cure and self cure modes*. Available in a universal TRANSLUCENT shade, the high glass filler content increases its strength making DUO-LINK resistant to wear and staining. It is ideal for cementing all-ceramic/porcelain, metal, and composite restorations (inlays, onlays, crowns, bridges), as well as fiber and metal posts.

*Degree of Conversion (%) in Both Light Cure and Self Cure Modes

- Extremely high degree of conversion and stability ensures a long lasting restoration placement
- High filler content increases strength and resistance to wear
- Low film thickness ensures the restoration will be completely seated
- Auto-mix dual-syringe guarantees a perfect mix, easy placement and limited waste

BISCO products are proudly made in the U.S.A.

ORDERING INFORMATION

KIT CONTENTS

1 DUAL-SYRINGE PACKAGE
1 Dual-Syringe (Base/Catalyst, 8g mixed), 15 Mixing Tips and Intraoral Tips, Instructions/MSDS

TRANSLUCENT A-19010P

2 SYRINGE PACKAGE
1 Syringe Base (4g), 1 Syringe Catalyst (4g), Accessories, Instructions/MSDS

TRANSLUCENT A-1920B

4 SYRINGE PACKAGE
2 Syringes Base (4g ea.), 2 Syringes Catalyst (4g ea.), Accessories, Instructions/MSDS

TRANSLUCENT A-1940B
