

5 REASONS TO TRY TheraCem[®]

Dual-Cured, Self-Adhesive Calcium & Fluoride Releasing Cement

Rx Only

1 Fluoride and Calcium Release

Continuous calcium and fluoride ion release.*

2 Contains MDP

Strong bond to zirconia, metal and alumina substrates without primer.

3 Easy Clean-up

Tack curing for 2-3 seconds facilitates the removal of excess cement.

4 Alkaline pH

Transitions from acidic to an alkaline pH in minutes.*

5 Radiopaque

Easily identified on radiographs for quick and effective diagnosis.
