IN-225R9  
Rev. 9/21

Caution: U.S. Federal law restricts this device to sale by or on the order of a licensed Dentist.

NOT: Independent of whether or not the restorations have been conditioned beforehand, they should be cleaned according to the following cleaning protocol:

**Non-Etched Materials (Zirconia, Composite, Metal)**

1. Try in (to check condensation and fit).

2. After trying, thoroughly rinse the restoration with water spray and dry with oil-free air.

3. Remove cap from ZirClean securely attach tip and verify of material prior to application.

4. Cover all bonded surfaces of the restoration with a layer of ZirClean.

5. Allow 20 seconds for the cleaning action of ZirClean to take effect, then thoroughly rinse with water spray and dry with oil-free air.

6. Sandblast the surface of restoration (unless restoration has previously been sandblasted).

7. Prime the bonding surface of the restoration with a suitable primer (e.g. Z-PRIME™ PRIMER or Bi-Silane™) according to manufacturer's instructions.

**Zirconia**: Biscos ZirClean is a cleaning gel suitable for non-abrasive cleaning of the bonding surfaces of prosthetic restorations after intraoral try-in. Consequently, it helps to achieve reliable adhesive cementation results.**Indication for use:** licensed dentist.**Indications for use:** dentists.

ZirClean is an extracleaner of pre-treated ceramic, zirconia and metal restoration surfaces which have been contaminated during intraoral try-in.

**Contraindications:**

• If the stipulated working technique cannot be applied.

• The technique is not performed intraorally.

• For the cleaning of restorations which have come in contact with silicone-based pastes.

**Warnings:**

• May cause chemical burns.

• Do not breathe in fumes.

• In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

• Wear suitable protective clothing, gloves and eye/face protection.

• DO NOT use ZirClean to etch enamel or dentin surfaces.

• If irritation occurs during dispensing, replace tip and check. Use only with provided dispensing tips. See reader instructions below.

• Do not allow any product to be ingested.

• Do not use on the eyes or lock cap.

• This material and its container must be disposed of as hazardous waste. Follow disposal instructions.

**Cautions:**

• Cross-contamination: Product may contain items that are designed for one use. Dispose of used or contaminated accessories. Do not clean, disinfect or reuse dispensing tips.

• Use of commonly available hygiene protective covering to avoid any contamination of syringes during treatment is recommended. If syringe becomes contaminated, follow disposal instructions. Do not clean or disinfect.

**Precutions:**

• Contamination: The product can contain articles that are designed for one use. Dispose of used or contaminated accessories.

• Use of commonly available hygiene protective covering to avoid any contamination of syringes during treatment is recommended. If syringe becomes contaminated, follow disposal instructions. Do not clean or disinfect.

**Vorsichtshinweise:**

• Kontamination der Restauration mit Speichel oder Blut muss nach dem Entfernen der Restauration mit ZirClean verhindert werden. In Fall einer Kontamination muss dies die gesamte Handhabung der Restauration wiederholt werden.

• Die Praktizierende sollte vor dem Entfernen der Restauration mit ZirClean abwaschen und mit Öl-freiem Luftholz trocknen.

• Nach der Reinigung muss der Praktizier erneut auf die Oberflächen aufgetragen werden, die zuvor mit Zirkonzostitut abgewaschen wurden.

• Beachten Sie für spezielle Hartmaterialien die Etiketten der Einheitskomponenten.

• Das Sicherheitshandbuch ist unter [www.bisco.com](http://www.bisco.com) erhältlich.

• Gebrauchsanweisung auf Anfrage verfügbar.

• Instructions for Use available at [www.bisco.com](http://www.bisco.com).**INSTRUCTIONS FOR USE**

ZirClean je gač za čišćenje pogodan za neabrazivno čišćenje ljepljivih površina proteklih nadmoračkih nizkih intruderacnih isprobavanja. Slijedom tog posluju se u postupku pouzdani rezultati cemantizacije "jeplje tvari".

Predviđeni korisnici: ovlašteni zubi lječnik.

**Upotreba:** upotrebom.

ZirClean je ekstraordinarno stroži za čišćenje prethodno obradenih keramičkih, crnjokrivenih i metalnih površina koje su onečišćene tjeleskom intruderacnim isprobavanjem.

**Kontraindikacije:**

- Ako se primjenjuje redice tehniku ne može primjeniti.

- Ako se čišćenje vrši intruderac.

- Za čišćenje obnovljeneđijela koji su došli u kontakt sa pastama na bazi silikona.

**Upozorenja:**

- Može izazvati kempske opinke.

- Ne smiju se koristiti parne.

- U slučaju odrada u očima, odmah ispraviti s puno vode i potražiti savjet lekara.

- Noste priključku zubačtu objektu, rukavice i zaštitu za oči i lice.

- NEOMOĆU KORISTITI ZirClean za jedinice izložene površine kakline i željezne.

- Do izjeda može doći kada ZirClean ostane na koži ili dube vrijeme. Ako dođe do kontakta s drugim krvnim živinama u okviru velikog kolonija, neophodno je ih ukloniti.

- Ako se tjeleskom izloženje pojavi, izjaviti u vlasničnu projekciju.

- U slučaju odrada u očima, upotrijebiti prilagođeni vrhinski dodatak.

Pogledajte stavke u nastavku o mogućnosti ponovnog ravnateljivanja opreme.

- Ovi i primjene ne smiju proglasiti.

- U slučaju odrada u očima, potrošiti poklopac Luer lock.

- Ova primjena i pojedinosti smjeru se odgledaju kao opasni otpad.

Stavak za odgovaranje:

- Ako se čišćenje vrši intruderac.

- Za čišćenje obnovljeneđijela koji su došli u kontakt sa pastama na bazi silikona.

**Oporez:**

- Unakrsna kontaminacija. Proizvod može sadržavati prilagodjene za jednokratnu upotrebu. Odštite režim u kojem je kontaminiran prilikom izradbe.

- Preporučuje se upotreba oblaganje dozidanih higijenskih zastavica.

- Ako se primjenjuje redice tehniku, ne može primjeniti.

- Ako se čišćenje vrši intruderac.

- Za čišćenje obnovljeneđijela koji su došli u kontakt sa pastama na bazi silikona.

**Mjere preduzeti:**

- Onečišćenje obnovljeneđijela sitemom u krovu mera se apsolutno izbjegava.

- Nakon čišćenja nakon obnovljeneđijela sitemom se primjenjuje.

- Ne smiju se koristiti parne.
