### TheraCal LC® Resin-Modified Calcium Silicate Pulp Protectant/Liner

en

#### GENERAL INFORMATION

TheraCal LC es un ligeramente, kunkatofrado kálmatozum oto ateraputado de la pulpa, das as Barres e o Schutz der Zahnpulpa para proteger el pulpa de la exposición a las duras condiciones. El light-cured se permite el practicón inmediata planificación y conservación de la pulpa. La pulpa se protege de la exposición a la luz visible y se mantiene estable durante el proceso de polimerización. La propietad de hidrófobo del compuesto hace que sea estable y duradero.

Intended user: Licensed dentist.

Indications for use:

- 1. TheraCal LC es indicado para uso como direct pulp capping agent. Es puede aplicar directamente al nivel de pulpa expuesta. Se aplica directamente sobre las exposiciones pulparas una vez que se ha conseguido la hemostasia. Es indicado para todo tipo de exposiciones pulparas, notamment:
  - Caso cariósico
  - Exposiciones traumáticas
  - Exposiciones de trauma
- 2. TheraCal LC es indicado como agente de recubrimiento pulpar indirecto en preparaciones profundas, una protección liner en grandes preparaciones, base o sellador para uso:
  - Under Amalgam restorations
  - Under composite restorations
  - Under other base materials
  - As an alternative to calcium hydroxide
  - As an alternative to ionomer/RMGI
  - As an alternative to zinc oxyphosphate
  - As an alternative to zinc oxyphosphate
  - As an alternative to RMZOC (intermediate Restorative Material)

Warnings:

TheraCal LC contiene polimero de metacrilato de polimero. Evitar prolongada o repetida exposión con piel, ojos, o mucosas. Evitar inhalación o exposición a los ojos. Irritación y posible daño permanente. Dado que es sensible a la luz, la exposición prolongada o repetida a la piel, los ojos, mucosas o la ropa puede causar daño permanente. Dado que es sensible a la luz, la exposición prolongada o repetida a los ojos, la piel o la ropa puede causar daño permanente. Irritación o reacción alérgica a los componentes de la pulpa. Evitar contacto prolongado o repetido con la piel, los ojos, mucosas o la ropa. Los casos más graves de irritación o reacción alérgica a la pulpa pueden causar daño permanente.
